

## About L.E.A.P:

SHED Inc. has been part of the Andover community for over 25 years. We are a program that is committed to ensuring that strong human connections are made daily for every child and family in our care. We strive to provide quality programming that speaks to our children as individuals - regardless of background, age or ability. We seek each day to earn the trust of children and families as we provide a safe and nurturing environment for all.

Little Explorers At Play (LEAP) is a new program offered by SHED Inc. to children ages 3-5.

LEAP's goal is to provide fun and enriching classes which allow children to participate and explore both favorite and new activities that challenge their growing bodies and minds. LEAP offers children the chance to express themselves, and provides opportunities for learning and sharing with friends.
